

TRAC MEETING NOTES
August 25, 2024

Attendees: Ginger Bulkeley, Chair
James Fitch
Scott Sweet, Vice Chair
Kevin Noble
Tim Schad, Secretary
Everett Cass
Jeff Baillargeon

Meeting notes from 8/13/24 were presented and approved.

The Chair presented the Agenda.

- Summary of goals/project overview approach of TRAC.
- Discussed the necessity of selectmen responding to the list of questions of existing conditions to ensure we do not repeat work already done. This will relate to members' tasks.
- Kevin Noble reviewed his research with material specifications. Looks like D.O. T. Vermont has the best specification.
- Discussion of locating "hot spots" to start a mapping priority list for summer rebuilds of 2 miles of road each year. This will require the creation of digital maps. Jim Fitch will work with his son to produce a sample of what his mapping can create with input from Mike Duval and his records.
- Everett Cass commented on road construction.
- Jeff Baillargeon made comments regarding paving with detail on tac coat. All would like to have residents' comments.
- Discussion on base cost per mile of total rebuild. Tim suggested that it would cost approximately \$158,000 per mile.
- Tim to reach out to Mike Duval for participation and to have the Road Agent attend.
