

CORNISH COMMUNITY POWER PUBLIC HEARINGS

***THIS IS A MATTER THAT WILL BE VOTED
ON AT TOWN MEETING 2025***

What is Cornish Community Power?

The Cornish Select Board and the Cornish Energy Committee are proposing that the Town of Cornish become the default electricity purchaser for its residents. By joining a larger pool of customers to expand buying power, Cornish Community Power could offer residents greater stability in electricity prices, local control over sources of electricity, and innovative energy services.

Currently, there is a successful model for Community Power here in NH: the Community Power Coalition of NH (CPCNH), which is a community-governed non-profit power agency. Over 60 NH communities are now members of CPCNH.

Community Power is voluntary: customers can opt-out or opt-in any time before the end of each monthly billing period.

Who will deliver your electricity? The 3 major electric distribution utilities (Eversource, Liberty & NHEC) will continue to own and operate the grid, deliver electricity to all customers, respond to outages, and bill customers.

What are the Public Hearings for? The Public Hearings will explain Community Power, answer your questions, and seek your input on the Community Power Plan, which is the basic governing document that will underlie the vote at Town Meeting 2025.

Thurs. Nov. 14, 2024 from 6:30-8pm

Tues. Dec. 3, 2024 from 6:30-8pm

Backup date to be used in case of bad weather: **Wed. Dec. 11, 6:30-8pm**

Held at Cornish Town Offices, 2nd fl., 488 Town House Rd., Cornish NH

To join by Zoom: [PRE-REGISTER](#)
